

## Let's Explore the World Learning Journey

In this project, you will learn about atlases, maps and cardinal compass points. You will learn about the characteristics of the four countries of the United Kingdom and find out why there are hot, temperate and cold places around the world. You will also compare England to Somalia. You will carry out fieldwork, collecting primary data near school to find out how many vehicles pass school and how often local human features are used.

### Geographical Skills

Geography

How and why do we use an atlas?

Geography

How and why do we use compass points?

Geography

How and why do we use a key on a map?

### The World

Geography

Where are poles, hemispheres and the equator?

Geography

Where can we find hot, temperate and cold places in the world?

### The United Kingdom

Geography

What are the characteristics of the United Kingdom?

Geography

How are Somalia and the UK similar and different?

### Geographical Enquiry (Summer Term)

Geography

Which human feature is most used in our local area?
