

One Planet, Our World Learning Journey

In this project, you will learn to locate countries and cities, and use grid references, compass points and latitude and longitude. You will learn about the layers of the Earth and plate tectonics and discover the five major climate zones. You will learn about significant places in the United Kingdom and carry out fieldwork to discover how land is used in the locality.

Geographical Skills

Geography

How can we use maps, atlases and globes to locate countries?

Geography

How and why do we use compass points and grid references?

The World

Geography

What do you think will happen to the Earth's crust over time?

Geography

How can we use latitude and longitude to find European countries and cities?

Geography

What are the five major climate zones on Earth?

The United Kingdom

Geography

What are the common human and physical features in the UK?

Geography

Can you name locate and describe some major counties and cities in the United Kingdom?

Geographical Enquiry (Summer Term)

Geography

How is land used around our school?
