

Investigating Our World Learning Journey

In this project, you will learn about locating map features using a range of methods. You will learn about the Prime Meridian, Greenwich Mean Time (GMT), and worldwide time zones and study interconnected climate zones, vegetation belts and biomes. You will learn about human geography and capital cities worldwide before looking at the UK motorway network and settlements. You will then carry out an enquiry to identify local settlement types.

Geographical Skills

Geography

How and why do we use Ordnance Survey maps?

Geography

What are contour lines used for?

The World

Geography

Why does the world have different time zones?

Geography

How do biomes and climate zones affect vegetation?

Geography

What are some of the major world cities?

The United Kingdom

Geography

Why is the UK motorway network significant?

Geography

How can settlements be grouped and ranked?

Geographical Enquiry (Summer Term)

Geography

What settlement types are in the local area?
